

MR-SPOT®

Professional **skin markers**
designed specifically for use in **MRI**

MR-SPOT[®]

MR-SPOT[®] skin markers image **brightly** and **consistently** on all **pulse sequences**.

Regardless of which varieties of MR-SPOT[®] products your facility chooses, you can expect...

Unmistakable Image Quality

Bright and consistent imaging on every sequence allows for unmistakable communication between patient, technologist, and radiologist

An Indentation-Free Image

All MR-SPOT[®] skin markers adhere to the top of a self adhesive label, eliminating indentation and providing radiologists with an accurate look at the area of interest

Precise Localization

Six sizes are available. Choose the size marker that best suits each particular patient's need

Ease of Use

Simply peel and stick. No more wasted time, fumbling with tape, or worrying about a vitamin capsule melting while on the patient

A Professional Product

Designed specifically for use in MRI, MR-SPOT[®] products provide the busy technologist with a disposable skin marker that is convenient and more appropriate to apply to a patient than a vitamin capsule or mustard pack

Designed by MRI technologists, there is an MR-SPOT® skin marker that is perfect for any scan requiring the use of a skin marker.

Choose from a wide range of MR-SPOT® products to meet your every skin-marking need within MRI

MR-SPOT®

easy to see and distinguishable; the perfect skin markers for communicating an area of interest

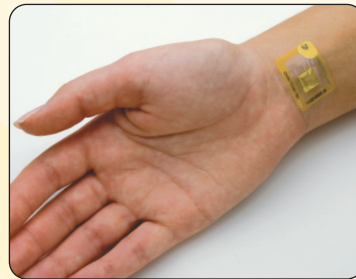

MR-SPOT Packets™

indentation-free and comfortable; the perfect skin markers to use with a tight fitting coil or weight bearing exam

PinPoint®

precise; the perfect skin marker for when a patient says "it hurts right here"

Ortho-SPOT Packets™

designed for orthopedic imaging; the perfect skin marker for the imaging of extremities
